General Index 1985

Archaeology and pipelines – P. D. Catherall . . 98
British engineering for Munich 184
Customer accounting – caring for customers and cutting costs: E. D. Melrose 216
Developments in appliance technology – towards the year 2000: M. C. Patterson and M. B. Tung . . 213
Distribution engineering innovation: C. Barker . . 116
Effective management development and the middle manager: J. A. Fielder and P. G. T. Woodman . . 94
Factors that influence the annual efficiency of domestic wet central heating systems: H. P. McNair and A. R. Shiret 90
Future gas energy – the options: K. F. Wait and P. Lawrence 149, 186
Gas – the engineering challenge: Sir Denis Rooke . 172
Gas through the looking glass: H. Tishler 194
Heritage 46, 74, 105, 147, 214, 236
Hornsea salt cavity installation: F. Dean 74
IGE News . . 15, 47, 79, 112, 143, 175, 207, 239, 271
Improved Customer Service by immediate billing: J. S. Macfarlane 106
Improving old boilers: I. D. Culleton 8
Improving the efficiency of cast iron sectional boilers: D. K. Anderson 2
Infill sites – the engineering perspective: D. Targett . 226
Logistic support in a British Gas Region: L. Gibson . 130
Membership changes. 32, 113, 210
Microcomputer-based energy management game for teaching financial and investment aspects of energy management: R. J. Jones and J. Masters . . . 66
Mining – operational experience: D. R. Cole . . 52
Mix 'n' match: P. D. Ross 119
Natural gas in Britain – the next phase: C. W. Brierley . 76
New gas supplies: I. J. Hartill 269
New Ordinary Members of Council 176
News from Industry. 178, 204
On target with Rough: J. McHugh 220
Pigging the professional way: C. J. Newport . . 248
President 1985–86 175
Presidential Address – research and achievement: W. L. Mercer 162
Small scale combined heat and power: T. Dudley . 34
Some aspects of the development of SNG processes: J. A. Lacey 258
Vice-President 1985–87 175

Author Index

Anderson, D. K. Improving the efficiency of cast iron sectional boilers 2
Barker, C. Distribution engineering innovation . . 116
Brierley, C. W. Natural gas in Britain – the next phase . 76
Burns, J. R&D – the early Jubilee years . . 46, 74, 105
Catherall, P. D. Archaeology and pipelines . . 98
Cole, C. R. Mining – operational experience . . 52
Culleton, I. D. Improving old boilers 8
Dean, F. The Hornsea salt cavity storage installation . 14
Dudley, T. Small scale combined heat and power . . 34
Fielder, J. A. and Woodman, P. G. T. Effective management development and the middle manager . . 94
Gibson, L. Logistic support in a British Gas Region . 130
Hartill, I. J. New gas supplies 269
Jones, R. J. and Masters, J. Microcomputer-based energy management game for teaching financial and investment aspects of energy management . . . 66
Lacey, J. A. Some aspects of the development of SNG processes 258
Macfarlane, J. S. Improved Customer Service by immediate billing 106
McHugh, J. On target with Rough 220
McNair, H. P. and Shiret, A. R. Factors that influence the annual efficiency of domestic wet central heating systems 90
Melrose, E. D. Customer accounting – caring for customers and cutting costs 216
Mercer, W. L. Presidential Address – research and achievement 162
Newport, C. J. Pigging the professional way . . . 248
Patterson, M. C. and Tung, M. B. Developments in appliance technology – towards the year 2000 . . 213
Rooke, Sir Denis. Gas – the engineering challenge . . 172
Ross, P. D. Mix 'n' match 119
Targett, D. Infill sites – the engineering perspective . . 226
Tishler, H. Gas through the looking glass . . . 194
Wait, K. F. and Lawrence, P. Future gas energy – the options 149, 186
